PRESS RELEASE

jadian Nominated for Michigan 50 Companies to Watch Award *Celebrating high-performing, second-stage companies throughout the State of Michigan*

Lansing, Michigan (December 4, 2007): jadian enterprises, inc. has been nominated for the prestigious *Michigan 50 Companies to Watch Award*. jadian is a globally-operating software and services company based in Lansing that provides complete solutions for managing compliance, audits, inspections, work orders, licenses/certificates/permits, and enforcement activities. jadian's compliance solutions are being used around the world by wide variety of private industry companies and government agencies, including public health agencies, audit and inspection companies, food manufacturers, organic certifiers, road transportation authorities, national accreditation bodies, and federal agencies.

Michigan 50 Companies to Watch celebrates high-performing, second-stage companies located throughout Michigan. Known for their performance in the marketplace, innovative products, unique processes or philanthropic actions, these companies represent a wide range of industries from all corners of Michigan. They make an astounding impact on the state's economy by collectively providing thousands of jobs and contributing millions of dollars of revenue

"Obviously we are very honored to be recognized as an important contributor to the diversification of Michigan's economic landscape," said Jerry Norris, President and CEO of jadian enterprises. "At a time when prevailing wisdom says to outsource software development overseas, jadian has instead set its roots in North Lansing and made a strong commitment to help spur economic growth in the region. It's one of our major corporate goals, and this nomination validates that jadian is headed in the right direction."

jadian enterprises, inc

Headquartered in Lansing, MI, U.S.A., jadian enterprises is a global software company that provides complete solutions for managing inspections and audits, compliance activities, licensing and certification processes, and work orders.
